?

MANAGERS (END-USERS)

We accidentally clicked on a legend in the chart, and something happened...

...

Some charts show their share, some have fallen and others have not changed.

...

What's going on?

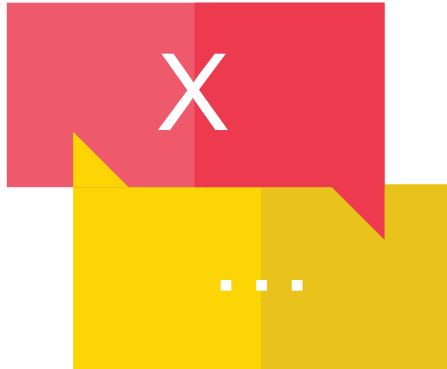

Why did it break?

Has double click in Pivot Table here worked the same as in Excel?

How do I cancel applied filters?

Initial Impulse

MANAGERS

L&D

LOCAL
DEVELOPERS

Initial Impulse

OK!!! Let's educate them.

X

We could not find anything that would teach the user directly in the service.

!

So in order to educate them, we have to develop it.

The decision to change it

Our solution requirements:

Upgradable

Multilingual

Microsoft Components Only

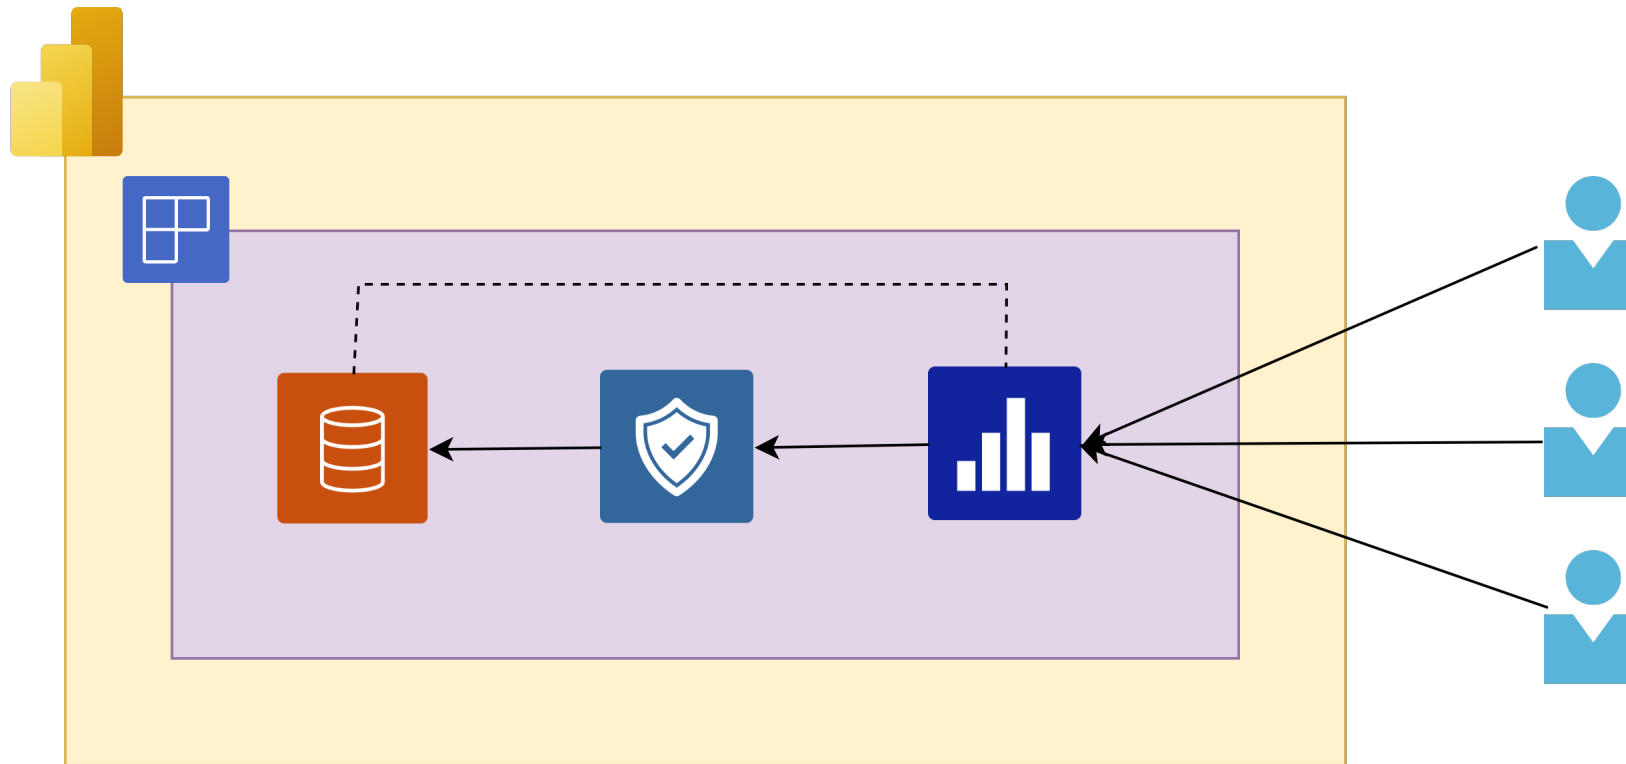

Data under customer security policies

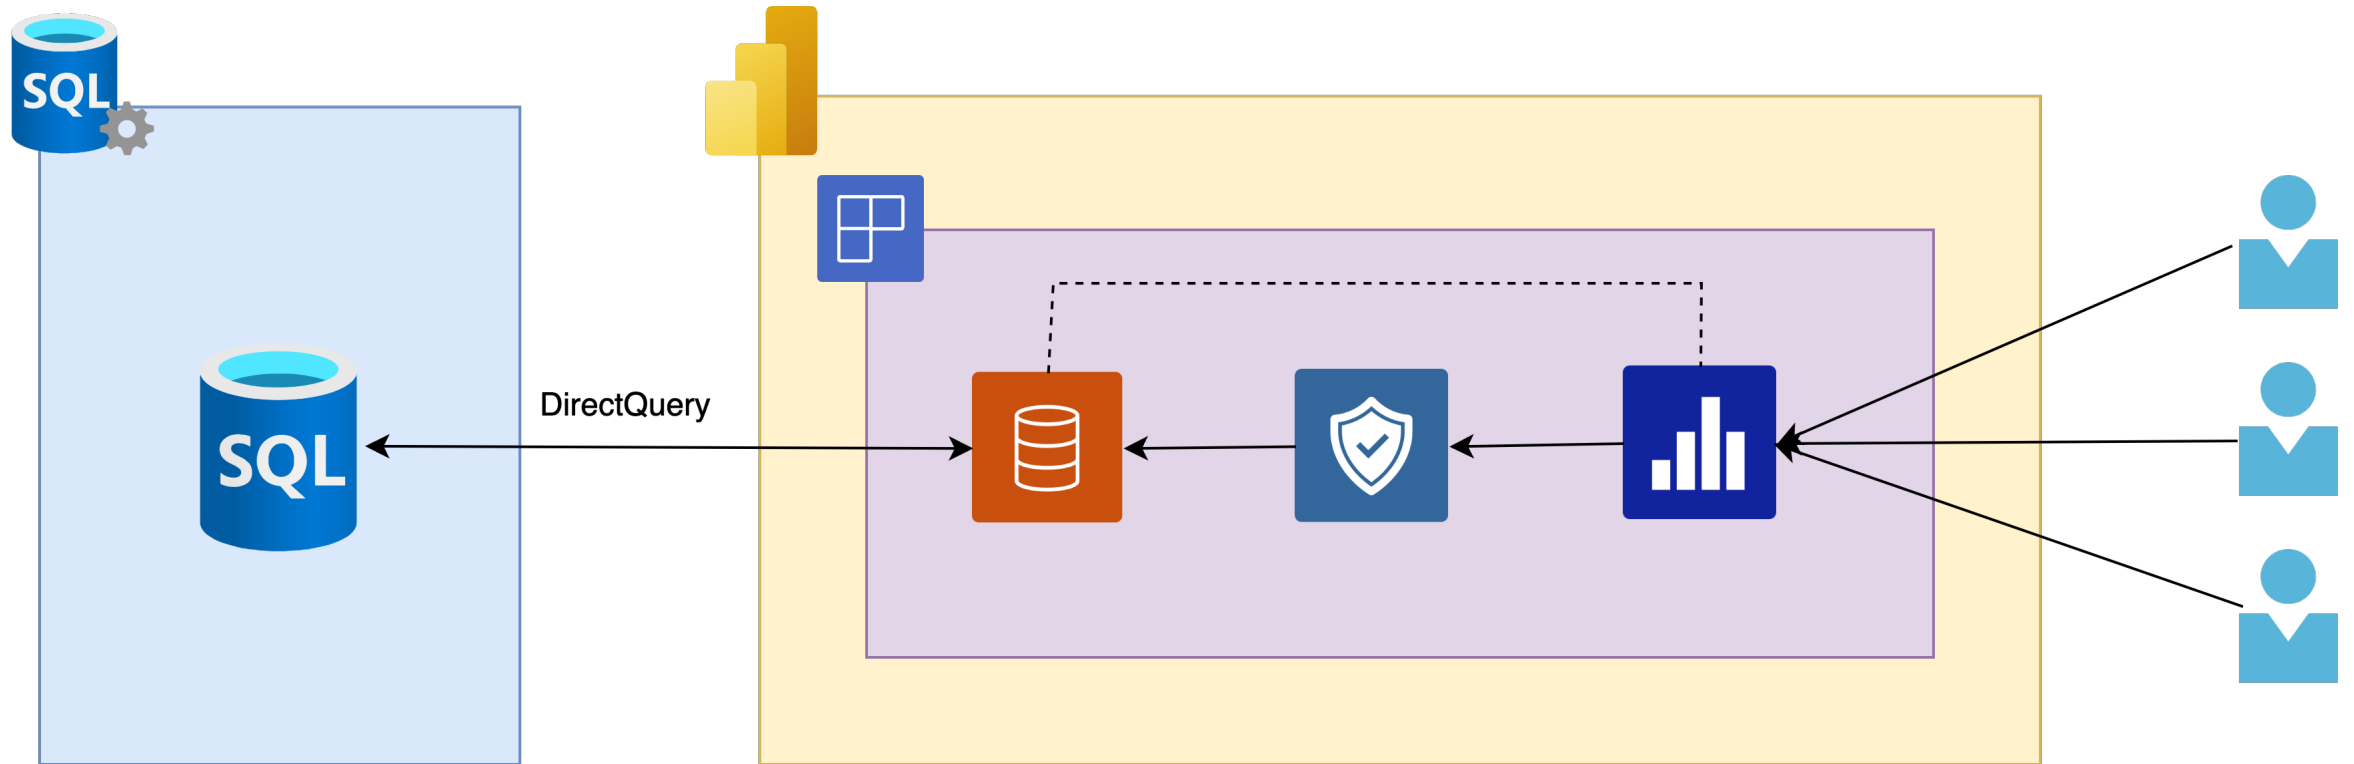

Financially advantageous

First architecture designs

First architecture design

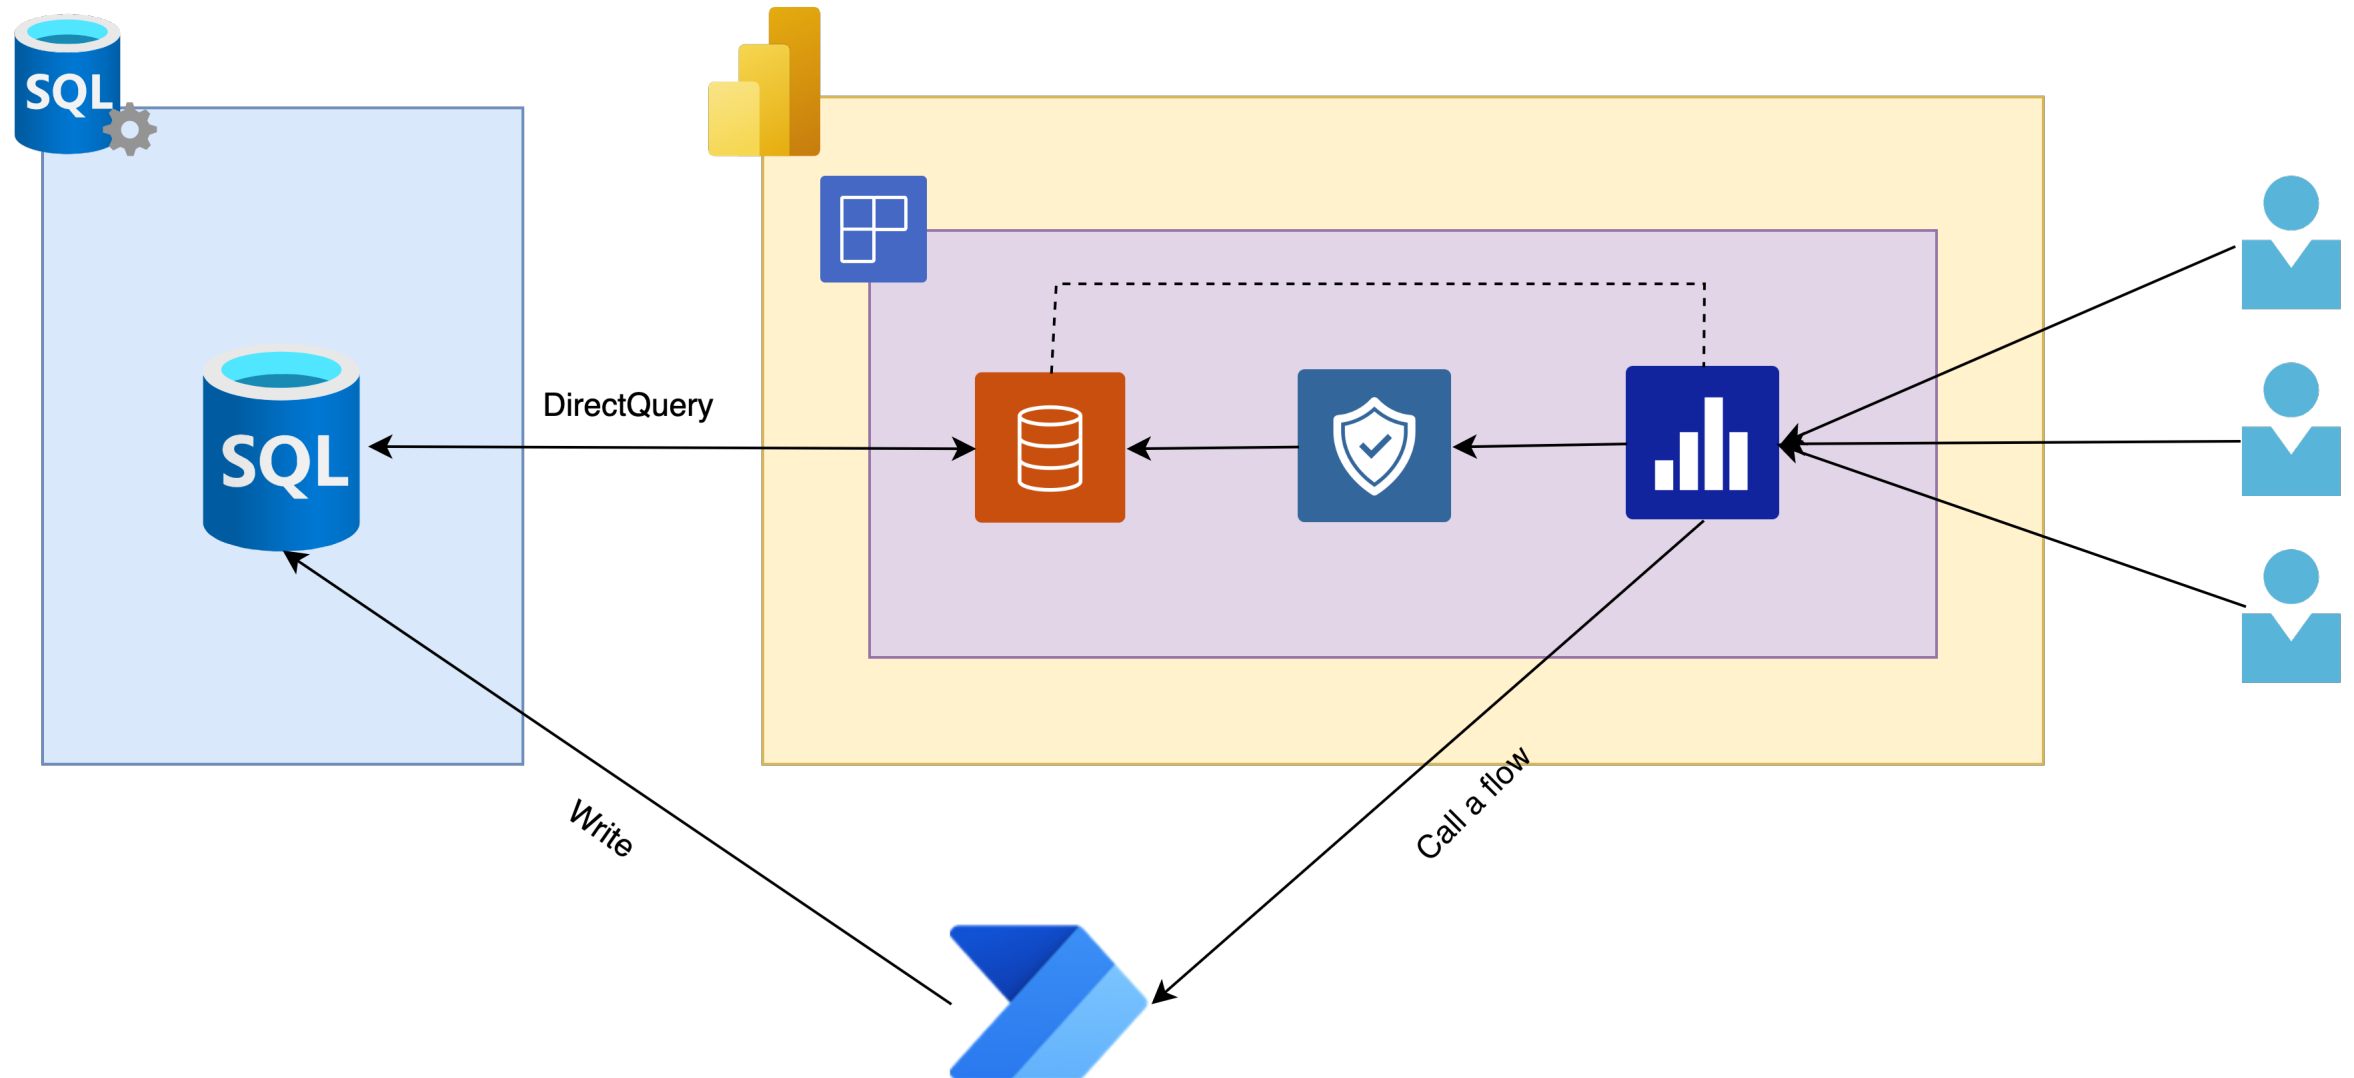

Second architecture design

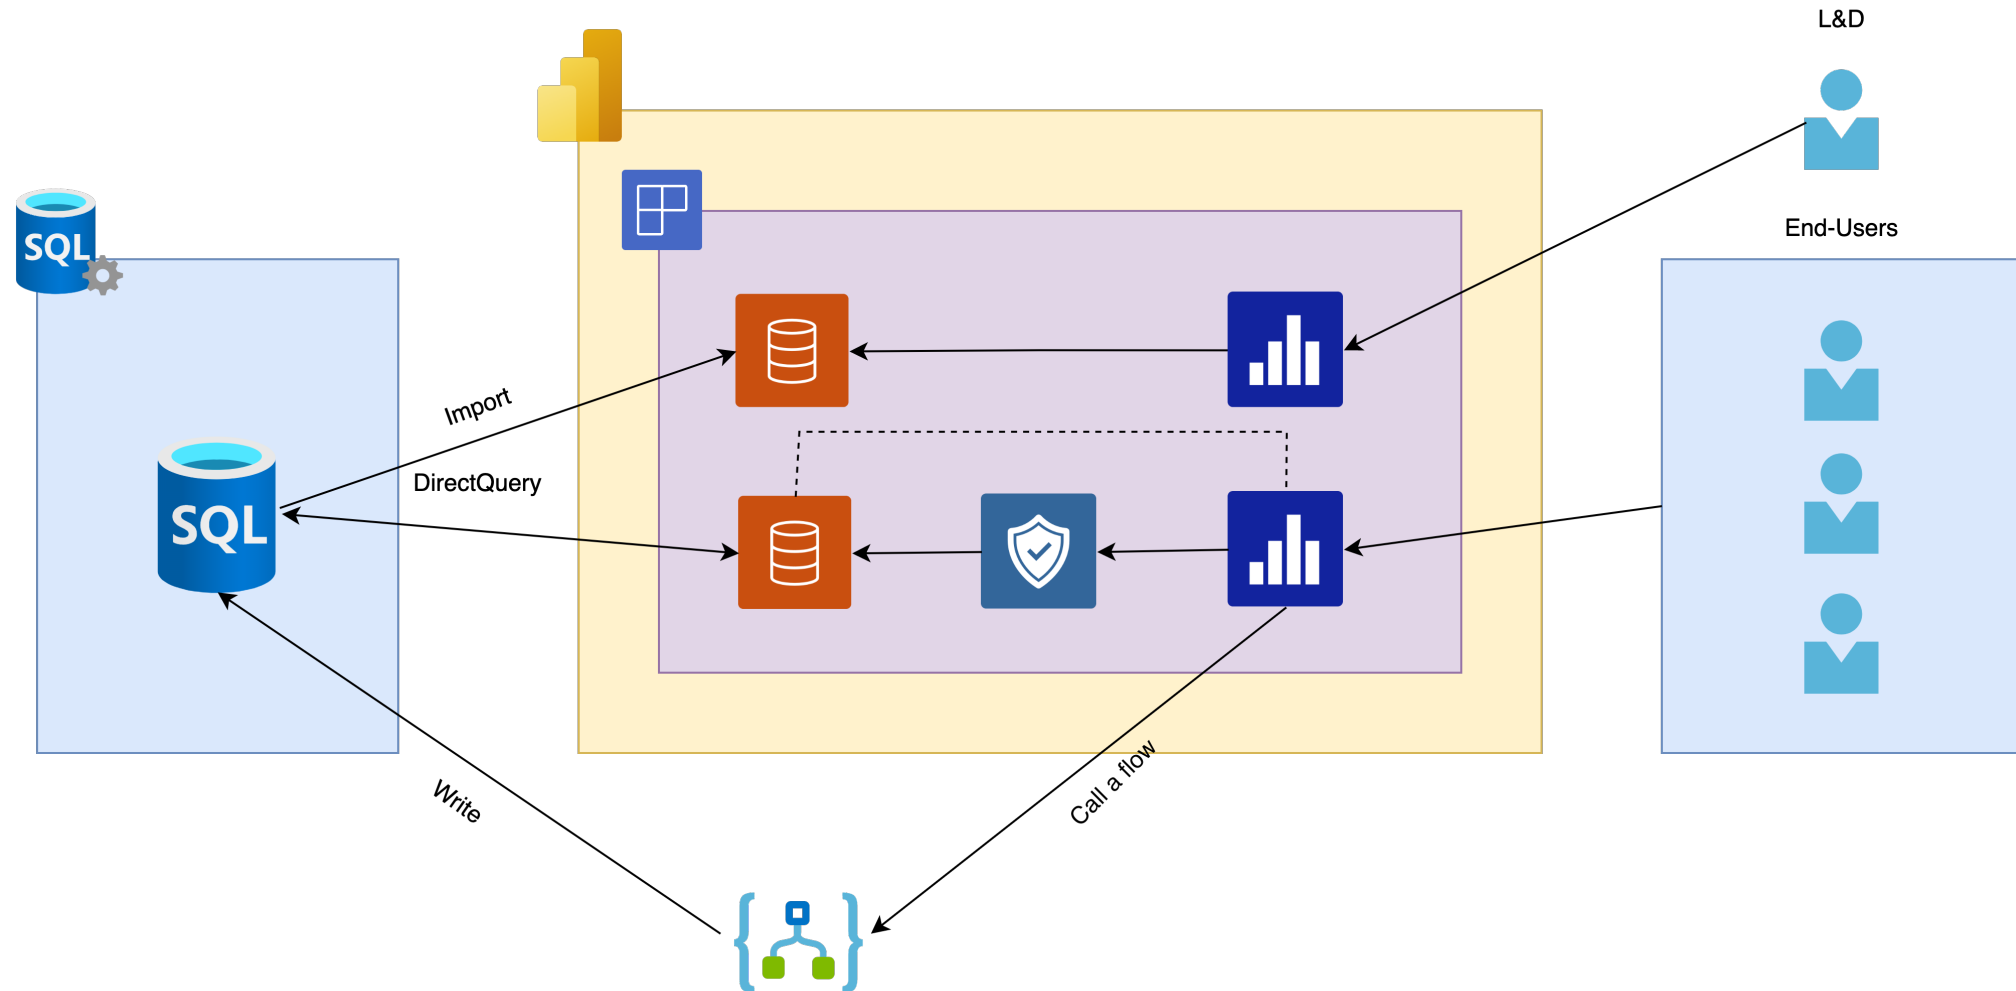

How to track progress?

Write-Back variant

Faster Write-Back + L&D Needs

Traps and lures

Traps and lures

Images vs Icons

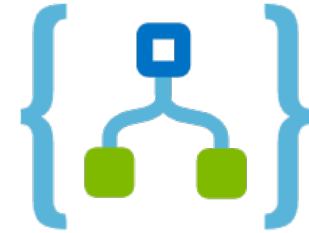

Traps and lures

Recorders

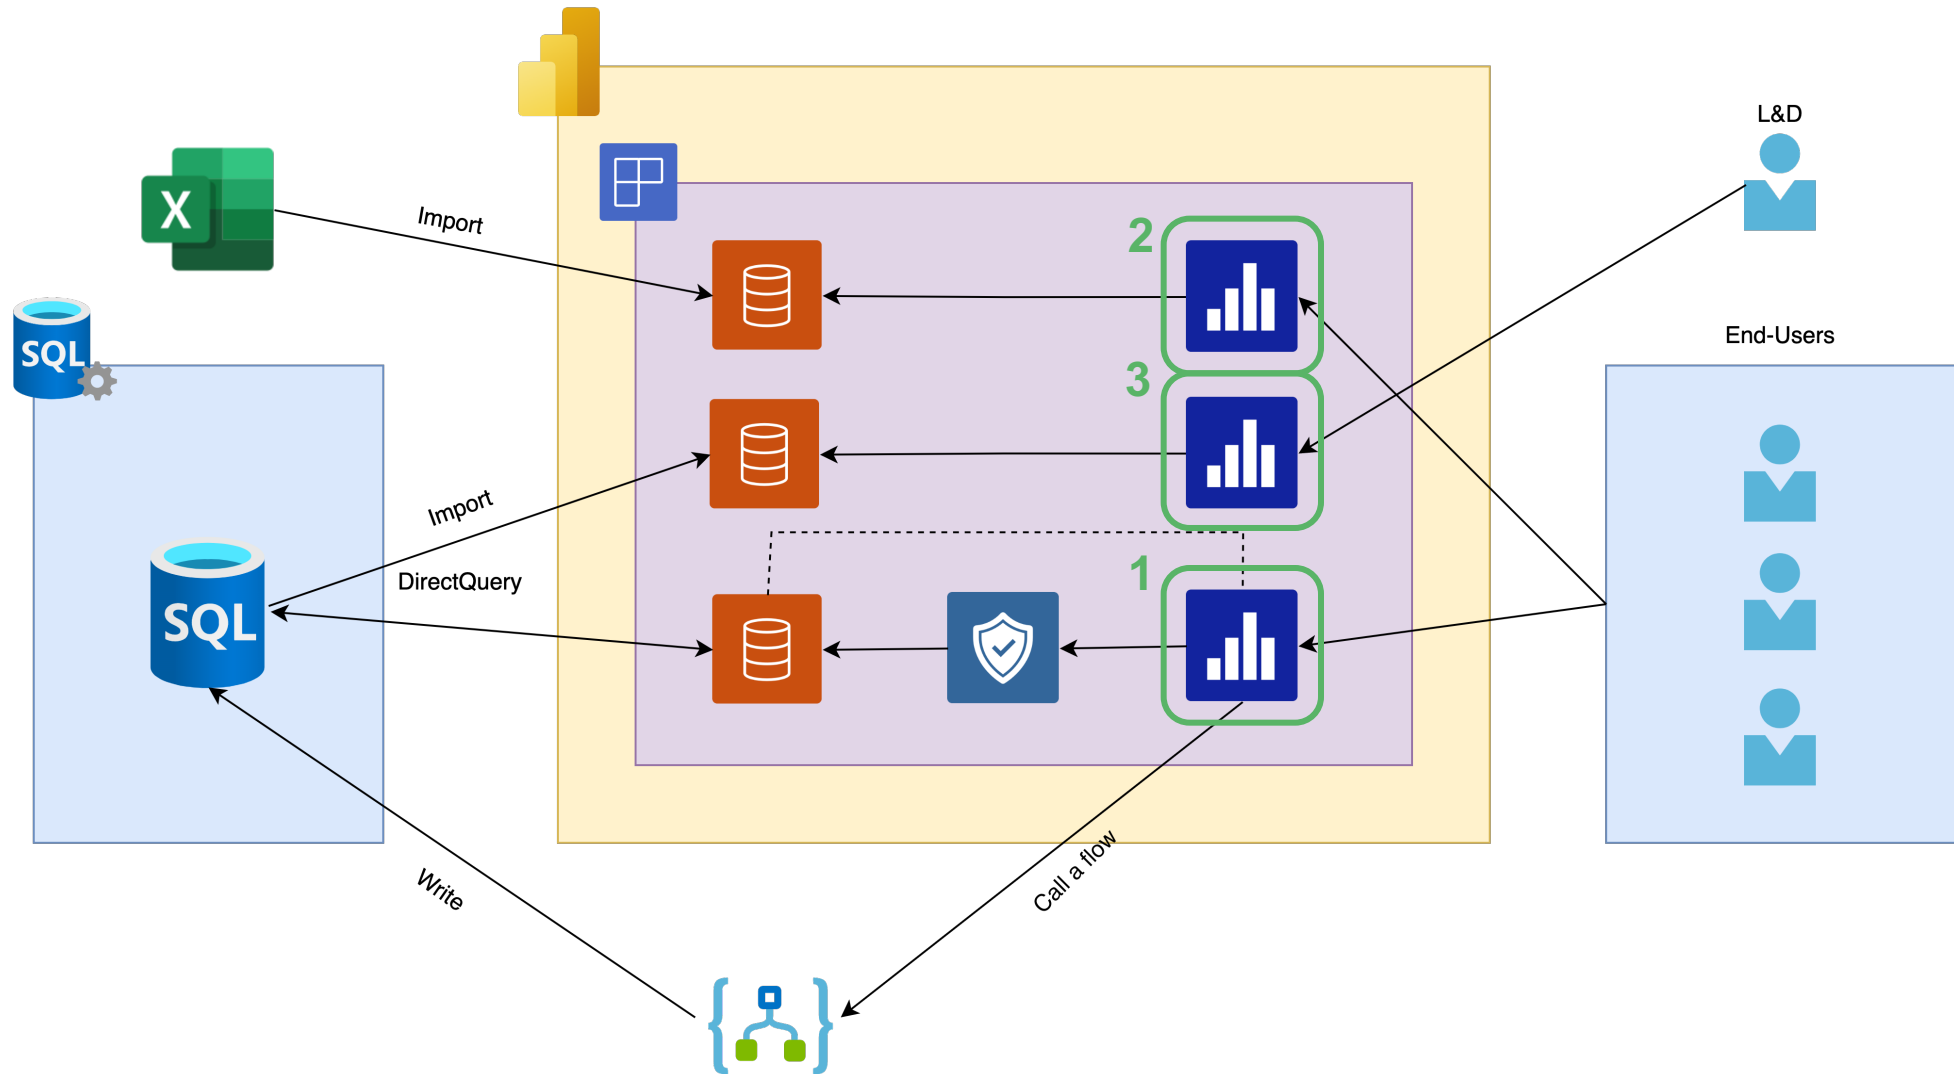

- ✓ Native Visual
- ✗ Language Support of Visual
- ✗ Latency + Execution time

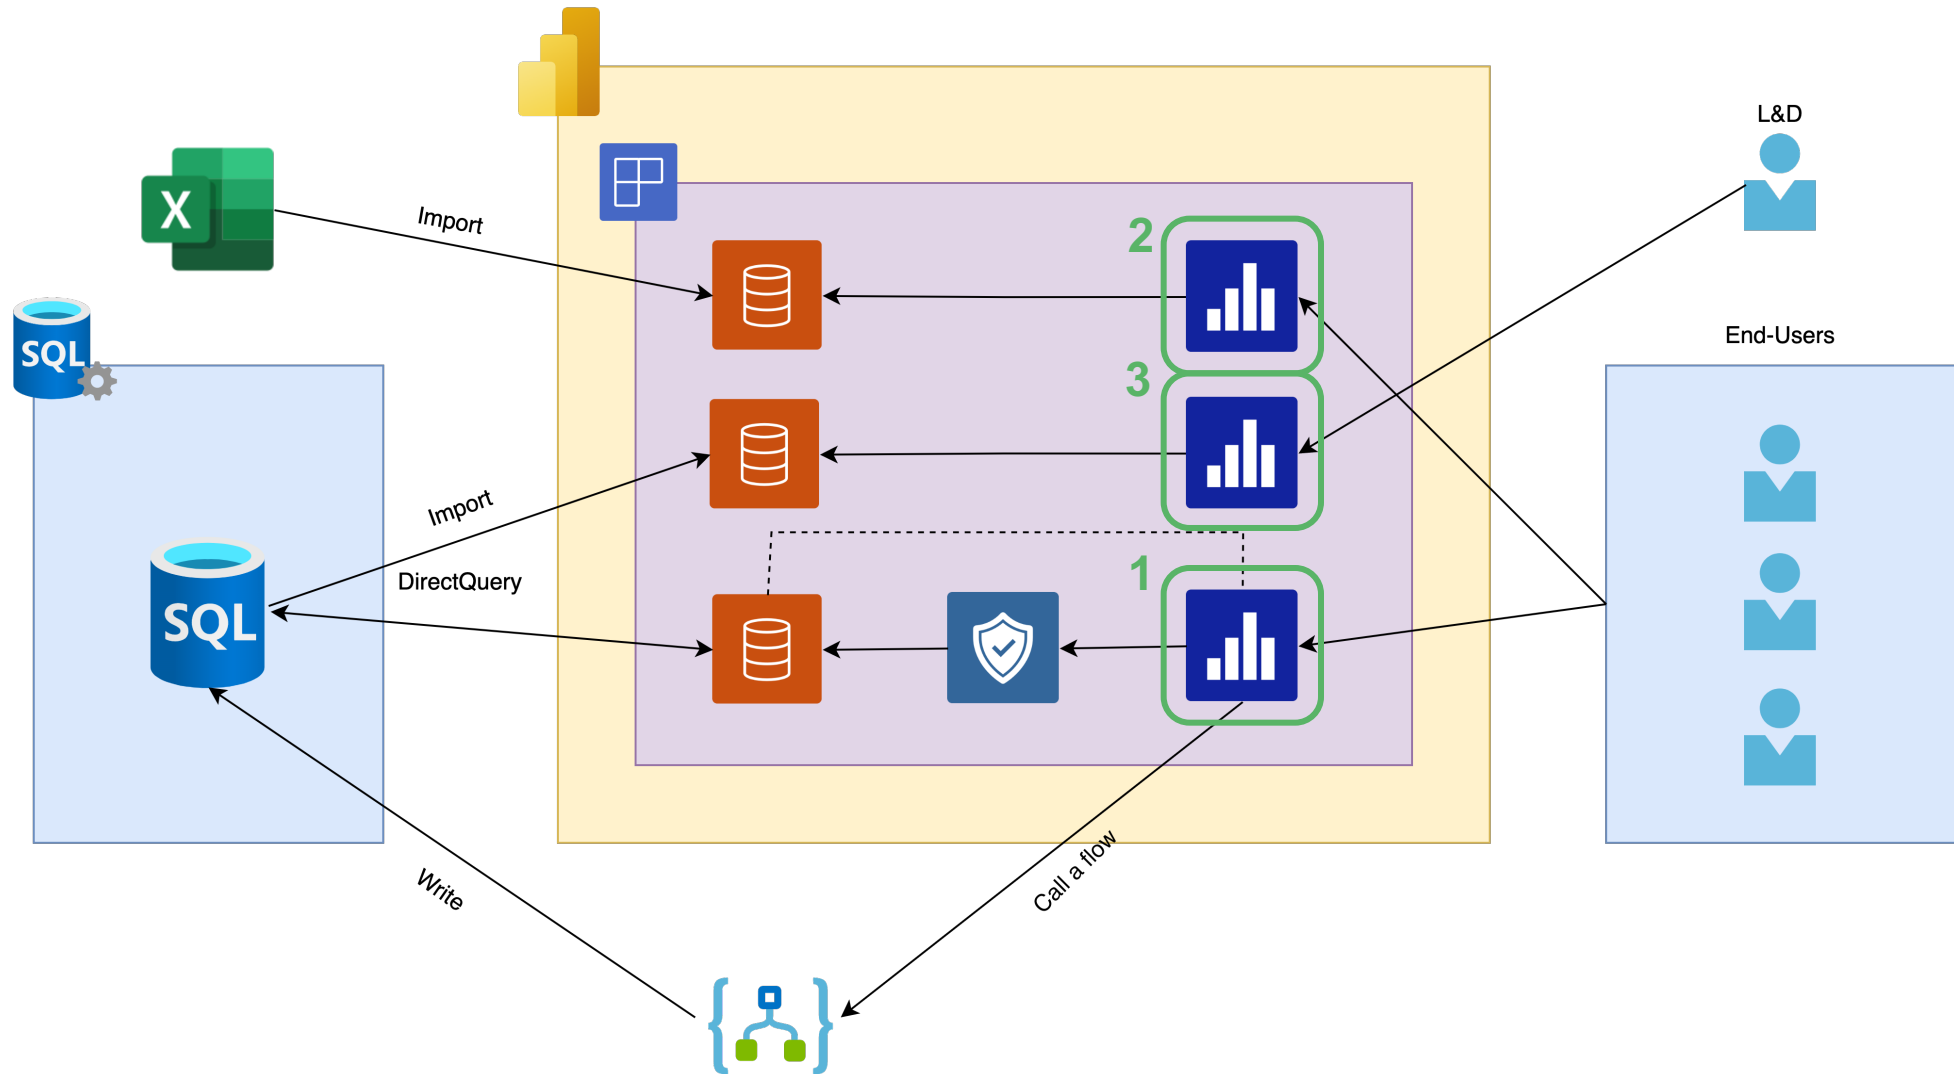

- ✓ Latency + Execution time
- ✗ No native visual

reportTee

reportTee

Unique for everyone

Each report is unique because it trains the management of reports directly on your data.

On the watch

reportTee keeps a watch and keeps track of your progress. You can go back to each chapter over and over again.

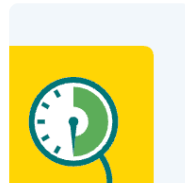

Hard worker

reportTee regularly studies news, about which it updates its studies every three months, so you always have the latest information.

Sharing is caring

When reportTee updates the training program, it informs you immediately.

Efficiency

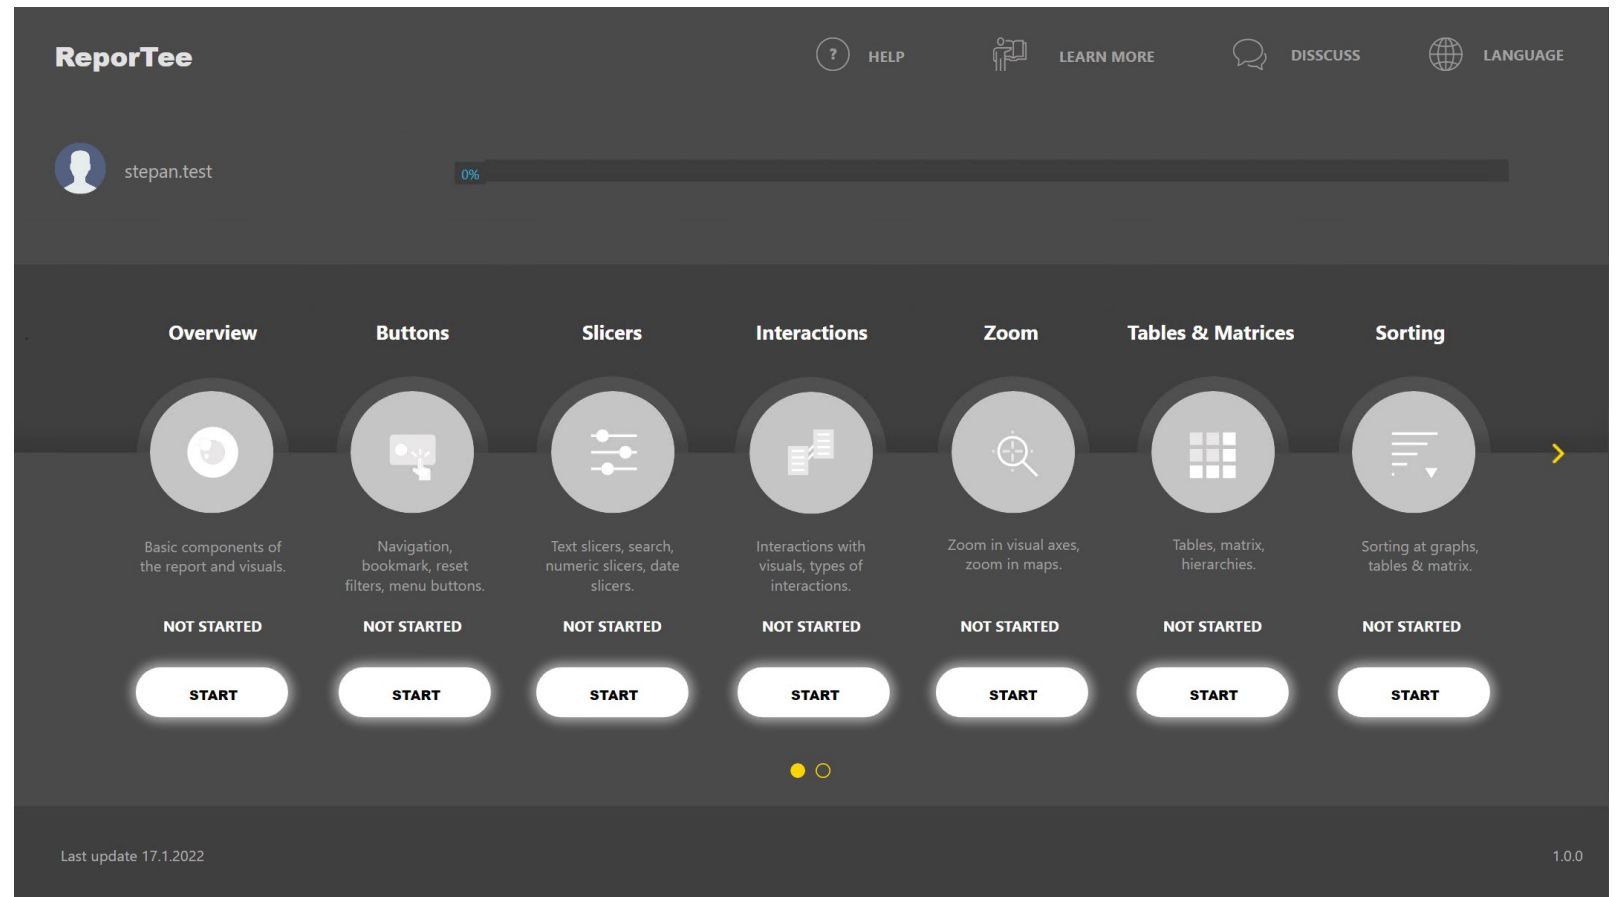

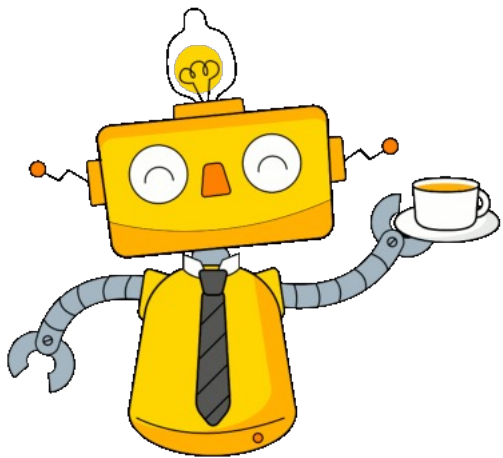

reportTee doesn't waste your time. They will teach you to manage reports within 30 minutes.

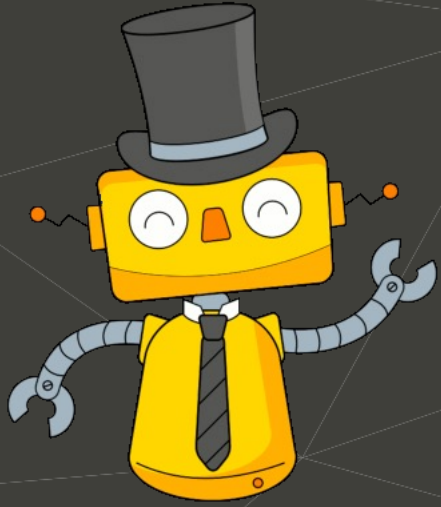

Communicative

Everyone can talk to reportTee. He speaks Czech and English and is ready to learn any world language in a moment.
